Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

Bulgaria Announced Two Tenders for Solar Photovoltaic (PV) Technology and Energy Storage Facilities with a Combined Budget of ...

On 21 August 2024, the Bulgarian Ministry of Energy opened a tender procedure for National infrastructure for storage of renewable energy (RESTORE) for granting stand-alone battery ...

Solar MD, a battery manufacturer based in South Africa, opened its LiFePO<sub>4</sub> Energy Storage facility in Rousse last year. State ...

Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system. The Bulgarian city of Lovech, ...

Bulgaria's Ministry of Energy has approved EUR588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. The ...

Austria-based renewable power producer Eney Development GmbH will establish an equally-owned joint venture with Romanian oil ...

The storage system is part of the largest hybrid fleet in the EU, including a 106 MW photovoltaic plant. It is connected to Bulgaria's first and only licensed closed distribution network located at ...

As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in national priorities but also in regional energy dynamics.

As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in ...

Billed as the largest operating battery energy storage system in Bulgaria to date, the 25 MW/55 MWh facility, developed by Austria's ...

In Lovech, located in north-central Bulgaria, the symbolic opening of the largest operating energy storage system in the European Union took place.

Bulgaria's recovery and resilience plan calls for deployment of a minimum of 1.4 GW of renewable energy with storage in Bulgaria, including an investment in renewable and storage facilities ...

A c.500MWh BESS project in Bulgaria has been inaugurated, claimed as the largest in the European Union (EU). The battery energy storage system (BESS) in Lovech, ...

Bulgaria and Romania have revealed the results of EU-backed tenders for renewables and energy storage, with gigawatts of storage winning.

Currently, Bulgaria's electricity market offers an opportunity for EUR110 (\$122) per MWh profit on battery energy storage with two hours ...

OMV Petrom partners with Enery for EUR200M Gabare solar project in Bulgaria. 400 MW capacity with battery storage makes it ...

Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution ...
