Why is Kyrgyz import tariff rising?

With the Kyrgyz Republic's entry into the EAEU, the average import tariff rate increased from 5.04 percent to 9.4 percent, according to Ministry of Economy and Finance estimates. With member countries opening their consumer markets to one another, small Kyrgyz producers have struggled against greater competition from industrial-scale competitors.

What goods does Kyrgyzstan import?

Kyrgyzstan imports a wide range of consumer goods, including clothing, electronics, and household items. These goods are subject to moderate tariffs, although Kyrgyzstan's status as an EAEU member means that certain products from EAEU countries may enter the country with reduced tariffs.

Does Kyrgyz Republic Export or import?

Export and Import . Kyrgyz Republic had a total export of 2,254,702.31 in thousands of US\$ and total imports of 9,802,959.42 in thousands of US\$ leading to a negative trade balance of -7,548,257.11 in thousands of US\$. The trade growth is -31.93% compared to a world growth of 5.18%.

What is Kyrgyzstan's tariff system?

Kyrgyzstan's tariff system is based on the Harmonized System (HS), which classifies products according to a numeric code. The tariff rates vary based on product type, with different categories of goods having varying levels of duty depending on their importance, use, or strategic value for the national economy.
