---

This generation profile reflects a system highly reliant on non-synchronous generation, particularly solar PV connected via power electronic inverters. Unlike synchronous ...

Spain's grid operator, Red Eléctrica, announced that renewable energy sources met the entire electricity demand of the ...

The extraordinary failure of Spain's entire electricity system in April sparked furious debate over the energy transition. But what caused the blackout?

Best solar panel seller/installer in Spain to reduce electricity bills and sell energy - Power Gardens. Solar shop, install, legalisation.

Smartenergy, a Swiss multinational specialized in renewable energies, intends to build one of the largest photovoltaic plants in Spain between Toledo and Madrid.

The extraordinary failure of Spain's entire electricity system in April sparked furious debate over the energy transition. But what caused ...

Swiss energy company Edisun has announced plans to build a 941MW solar park northwest of Madrid to provide power for AI datacentres.

Spanish solar power firm EiDF (BME:EIDF) has acquired ten photovoltaic projects in the Community of Madrid for over EUR 6.2 million (USD 6.44m), adding nearly 63 MW of ...

The hunt has begun for the cause of a massive blackout across Spain, Portugal and parts of France that halted trains, bank ...

Spain's grid ran entirely on renewable energy for the first time on April 16, with wind, solar, and hydro meeting all peninsular electricity demand during a weekday. Five days ...

Construction work on AS Madrid-Barajas Photovoltaic Solar Plant 142.42 MW located in Madrid, Spain commenced in Q3 2024, after the project was announced in Q1 2020.

According to the report, wind and solar power will drive the electricity system in 2030, together supplying 51% of generation (33% and 18% respectively), compared with 25% ...

Researchers in Spain have designed a PV window that performs active daylighting management while producing electricity. The ...

The sweeping power outage that hit Spain and Portugal this week has raised questions about the electricity grid in a region not normally known for ...

Two European companies announced an agreement to jointly develop as much as 2.2 GW of battery energy storage system (BESS) ...

The Madrid region has the highest energy consumption in Spain. So, the demand for solar power is therefore huge. Swiss project ...

Spanish airport operator Aena SME SA (BME:AENA) has awarded in a tender a contract for the construction and commissioning of a 7.5-MW solar photovoltaic (PV) system at ...

On June 15, 2024, Spain inaugurated SolMadrid, one of Europe's largest solar power plants, located on the outskirts of Madrid. ...
