Work with the leader in solar energy from preconstruction through to your next project with Mortenson's technical expertise in solar construction.

Origis Energy and the Tennessee Valley Authority (TVA) announced that construction has begun on the first of three projects in Mississippi with a ...

SACRAMENTO - The California Energy Commission (CEC) on Wednesday approved the Darden Clean Energy Project (DCEP), the first to be permitted under the state's ...

Learn about the 875 megawatts of solar and 3,320 megawatt-hours of energy storage, the largest single solar and battery energy storage project reaching the milestone.

Terra-Gen, LLC selected Mortenson as the full Engineering, Procurement, and Construction (EPC) contractor for both the solar and energy storage scopes of the Edwards & Sanborn ...

Terra-Gen and Mortenson have announced the activation of the Edwards & Sanborn Solar + Energy Storage project, the largest solar and storage project in the United ...

The 100-MW Franklin Solar project will be built by the same developer -- Duke Energy Sustainable Solutions -- that built the Jackpot facility. Franklin will also include a 60 ...

The solar project development process involves a detailed, multi-phase approach, including site selection, regulatory approvals, ...

Governor Kathy Hochul today announced that the Port Authority of New York and New Jersey and the New

York Power Authority began construction of New York State's largest ...

The 100-MW Franklin Solar project will be built by the same developer -- Duke Energy Sustainable Solutions -- that built the Jackpot ...

Known as the Edwards & Sanborn project, it was developed by Terra-Gen and built by Mortenson, an engineering, procurement and construction (EPC) contractor. ...

Discover the solar project development process, uncover financing options, and gain valuable insights for a successful project in this comprehensive ...

This ambitious 2,000 MW initiative, developed under a long-term contract with Amazon, consists of two phases, each incorporating 500 MW of solar power alongside an ...

As the renewable energy landscape continues to evolve, two significant projects are taking shape, poised to commence operations in the first half of 2026.

CVE North America (CVE), a leader in community solar development, commenced construction of its first solar and battery energy storage system (BESS) in New York State, located at its ...

There are over 1,350 major energy storage projects currently in the database, representing more than 108,000 MWh of capacity. The list shows that there are more than 185 ...

Once completed, the 2,000 MW Bellefield project is expected to be the largest solar-plus-storage facility in the United States.

Governor Kathy Hochul today announced that the Port Authority of New York and New Jersey and the New York Power Authority ...
