What is solar investing?

Solar investing encompasses investments in various aspects of the solar energy supply chain. Perhaps you invest in companies like First Solar (ticker: FSLR) that produce large-scale solar panels. It might even mean investing in a popular company like Tesla (TSLA) that hopes to create smaller solar products for homes.

Is solar energy a sustainable investment?

As more individuals, companies and governments become concerned about global climate change caused by carbon emissions, there's an increased interest in renewable energy as part of a socially responsible investing portfolio. One of the most often-cited types of alternative energy is solar power. [6 Places to Find Sustainable Investments](#).
